ABOUT

Passionate Frontend Developer with one year of hands-on experience crafting elegant and user-friendly web interfaces. I thrive on transforming ideas into visually stunning and functional websites that leave a lasting impression. Dedicated to continuous learning and staying abreast of the latest trends and technologies in frontend development. My mission is to inspire through innovative design and seamless user experiences, pushing the boundaries of what's possible in the digital world. Let's create something remarkable together.

WORK EXPERIENCE

- **Internship at Oasis Info Byte**

Frontend Developer Intern at Oasis Info Byte, where I designed and developed interactive mini projects, honing skills in frontend design and fostering a passion for creating engaging user experiences.

PROJECT

Currently developing a user-friendly Content Management System (CMS) tailored for educational institutes as part of ongoing project work. Customizing features such as user authentication, content scheduling, and course management modules. Additionally, implementing a unique feature for sending monthly alerts to students' parents regarding their attendance percentage.
